

THE 7 PRINCIPLES OF Tai Chi Walking

1. SOLIDITY

Balanced and grounded on one foot.

2. GRACEFUL MOVEMENT

The moving foot remains light and free.

3. BALANCE

Feel the weight distribution as you roll your foot.

4. ALIGNED POSTURE

Trust your feet. Head Up.

5. RELAXED BODY

Release tension.

6. MOVING CONFIDENTLY

Efficient pivot when you turn.

7. ONENESS

Move as a whole being.

*Moving slowly
reveals what
moving quickly hides.*

Tai Chi Walking

QUOTES

**Walking is something
we do every day.**

If you improve something you do every day, the benefits also appear every day.

**Many important things
are simple.**

Breathing is simple. Sleeping is simple.
Walking is simple.

Tai Chi Walking is very honest.

If you have tension, you can see it.
If you have impatience, you can see it.
If you have balance, you can see it.
If you have awareness, you can see it.

The question is not:

“Is it simple?”

The question is:

**“Do you benefit
from practicing it?”**

**Small things become powerful
when repeated many times.**

**Moving slowly reveals what
moving quickly hides.**

MOST PEOPLE ARE ALWAYS
THINKING ABOUT THE NEXT STEP.
TAI CHI TEACHES YOU
TO ARRIVE IN THIS ONE.
